

MEDICARE D – CREDITABLE STATUS OF MSLIC INSURED PLAN DESIGNS

Midwest Security Life Insurance Company (MSLIC) has reviewed its insured plan designs and determined that:

1. All plan designs that include a prescription drug card with prescription drug copayments are creditable to the Medicare D Prescription Drug Benefit.
2. Plan designs that do not include a prescription drug card with prescription drug copayments are creditable to the Medicare D Prescription Drug Benefit if the annual deductible for the plan is \$250 or less. Plans that have an annual deductible that is greater than \$250 are not creditable.
